#### Product description

Our 5 star hotel towels are 100% cotton, luxurious hotel quality. Choose from a white or gray value pack of four fresh, fluffy towels. The edges are reinforced with embroidered stitching to prevent wear and tear from long-term use and washing, and ensure quick drying. Our face towel is 5 hotel craft standard with premium thickening, delivering exceptional durability and a luxurious touch, wrapping you in enhanced warmth, softness, and comfort for a truly indulgent and snug experience every time. Our hotel hand towels have large, dense loops, so you don't have to rub them back and forth to absorb water. GSM stands for Grams Per Square Meter. The higher the GSM, the more absorbent the towel. Our hotel bath towels are made with low-temperature refining technology and are not bleached with strong acids or alkalis, retaining the natural toughness and softness of cotton fibers. They have natural colors, delicate touch, are safe and skin-friendly, and are durable. Our 5 star hotel towels are made of 100% cotton and are refined at low temperature using natural enzymes. The dyeing process of ordinary towels consumes a lot of water, so we save a lot of water.

## PRODUCTION PROCESS

#### Comparison between 5 star hotel towels and ordinary towels

1. material:Our towels are made of 100% long-staple cotton, which has longer fibers, higher strength, and is soft and skin-friendly. Ordinary towels are mostly made of short-staple cotton, which has short fibers and is easy to break. It will become hard and lint after long-term use.
2. Gram weight (GSM) and thickness:Our towels weigh 500-700GSM, while ordinary towels weigh 200-300GSM. Our terry is thicker and denser, while ordinary towels are more delicate.
3. Performance:Our towels absorb water in as fast as three seconds, while ordinary towels absorb water in 5-10 seconds.
4. Use and maintenance:Our towels remain soft and fluffy after multiple machine washes, are not easy to shrink or harden, and are mildew and antibacterial.Ordinary towels tend to harden, fade, and develop odors after washing.
