Product Description

On a hot and dry beach, a high-quality bathrobe is a must-have for those on the beach. If you want to lie down or take a walk on the beach leisurely, this new women's beach towel robe is the best choice.

The towel of beach towel robe women is made of high-tech super fiber material, which is the latest breakthrough in the entire prevention industry. It is a synthetic fiber material thinner than human hair, with a diameter only 1/100 of ordinary fibers, but its toughness and softness are very good. A self breathable system composed of thousands of fibers can effectively dissipate heat and ensure autonomous breathing.

Super fiber material has super strong water absorption ability, and the water absorption speed is more than three times that of ordinary towels. The most surprising thing is that it can completely dry in about thirty minutes under sunlight, avoiding the musty smell that traditional towel bathrobes may produce in humid environments for a long time.

The surface of the beach towel robe women has undergone special treatment, and the fiber ends are very smooth, which will not cause harm to the skin. Super fibers themselves have excellent wear resistance and shrinkage resistance, and can maintain softness even after multiple uses. In terms of design, we have combined the curves of women to create a corresponding slimming and cutting design, which not only reflects the prominent figure of women, but also provides a very comfortable and comfortable wearing experience. There are also carefully designed hoods, belts, and large pockets that can be well applied on the beach. In terms of dyeing, we use reactive dyeing technology to present brightly colored beach scenery colors and market beach scenery lines.

Of course, the most important thing on the beach is sun protection. We use special material formulas and processing techniques to add substances that can effectively block ultraviolet rays to the fibers for effective sun protection.

Beach towel robe women, with their lightweight, quick drying, and durable materials, allow women to freely stay dry and comfortable on the beach or anywhere. Choosing our beach towel robe, whether on the beach or during leisure time at home, can bring you intimate care.
